PATIENT ASSURANCE PROGRAMSM

EXPRESS SCRIPTS[®]

**CHAMPIONS
FOR
BETTER[™]**

We have partnered with Express Scripts to bring down the cost of preferred and participating medications for you and your family members living with diabetes.

Through the Patient Assurance Program, eligible members will pay no more than \$25 per 30-day supply of diabetes medications (insulin, DPP-4 inhibitors, GLP-1 agonists and SGLT2 inhibitors). That can mean more affordable access, fewer health emergencies and more money in your pocket. And the best part? It's already included in your benefit – so there's no additional charge!

See your benefits information for more details about participating medications.
